Nederlands Elektrotechnisch Comité (NEC)  
 Normcommissie 361 040 "Weerstand en condensatoren (NEC 40)"

---

Apart from exceptions provided by the law, nothing from this publication may be duplicated and/or published by means of photocopy, microfilm, storage in computer files or otherwise, which also applies to full or partial processing, without the written consent of the Netherlands Standardization Institute.

The Netherlands Standardization Institute shall, with the exclusion of any other beneficiary, collect payments owed by third parties for duplication and/or act in and out of law, where this authority is not transferred or falls by right to the Reproduction Rights Foundation.

---

Auteursrecht voorbehouden. Behoudens uitzondering door de wet gesteld mag zonder schriftelijke toestemming van het Nederlands Normalisatie-instituut niets uit deze uitgave worden verveelvoudigd en/of openbaar gemaakt door middel van fotokopie, microfilm, opslag in computerbestanden of anderszins, hetgeen ook van toepassing is op gehele of gedeeltelijke bewerking.

Het Nederlands Normalisatie-instituut is met uitsluiting van ieder ander gerechtigd de door derden verschuldigde vergoedingen voor verveelvoudiging te innen en/of daartoe in en buiten rechte op te treden, voor zover deze bevoegdheid niet is overgedragen c.q. rechtens toekomt aan de Stichting Reprorecht.

---

Although the utmost care has been taken with this publication, errors and omissions cannot be entirely excluded. The Netherlands Standardization Institute and/or the members of the committees therefore accept no liability, not even for direct or indirect damage, occurring due to or in relation with the application of publications issued by the Netherlands Standardization Institute.

---

Hoewel bij deze uitgave de uiterste zorg is nagestreefd, kunnen fouten en onvolledigheden niet geheel worden uitgesloten. Het Nederlands Normalisatie-instituut en/of de leden van de commissies aanvaarden derhalve geen enkele aansprakelijkheid, ook niet voor directe of indirecte schade, ontstaan door of verband houdend met toepassing van door het Nederlands Normalisatie-instituut gepubliceerde uitgaven.

Descriptors: Fixed capacitors, ceramic, surface mounting, multilayer, quality assessment, test and measurement, assessment level EZ

English version

**Blank Detail Specification:  
Fixed multilayer ceramic surface mounting capacitors  
Assessment level EZ**

**Vordruck für Bauartspezifikation:  
Oberflächenmontierbare  
Vielschichtkeramik-Festkondensatoren  
Qualitätsbewertungsstufe EZ**

This European Standard was approved by CENELEC on 1996-03-05. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

**CENELEC**

European Committee for Electrotechnical Standardization  
Comité Européen de Normalisation Electrotechnique  
Europäisches Komitee für Elektrotechnische Normung

Central Secretariat: rue de Stassart 35, B - 1050 Brussels

### Foreword

This European Standard was prepared by CENELEC/TC CECC/SC 40XA, Capacitors.

The text of the draft was submitted to the Unique Acceptance Procedure and was approved by CENELEC as EN 132101 on 1996-03-05.

This European Standard supersedes EN 132101:1991.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1997-03-01
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 1997-03-01

## IDENTIFICATION OF THE DETAIL SPECIFICATION AND THE COMPONENT

The first page of the detail specification should have the layout recommended on page 4 of this blank detail specification. The numbers in square brackets correspond to the following information which shall be inserted at the position indicated:

- [1] The name of the National Standards Organization under whose authority the detail specification is published and, if applicable, the organization from whom the detail specification is available
- [2] The CECC symbol and number allotted to the detail specification by the CENELEC Central Secretariat
- [3] The number and issue number of the CECC generic and sectional specification as relevant; also national reference if different
- [4] If different from the CECC number, the national number of the detail specification, date of issue and any further information required by the national system, together with any amendment numbers
- [5] A brief description of the component or range of components
- [6] Information on typical construction when applicable

For [5] and [6] the text to be given in the detail specification should be suitable for an entry in CECC 00 200 (Register of Approvals) and CECC 00 300 (Register of National Documents).

- [7] An outline drawing with main dimensions which are of importance for interchangeability and/or reference to the appropriate national or international document for outlines. Alternatively, the drawing may be given in an annex to the detail specification but [7] should always contain an illustration of the general outer appearance of the component
- [8] The level(s) of quality assessment covered by the detail specification
- [9] Reference data giving information on the most important properties of the component which allow comparison between the various component types intended for the same, or for similar, applications.

[1]	[2] CECC 32 101-...
[3] ELECTRONIC COMPONENTS OF ASSESSED QUALITY DETAIL SPECIFICATION IN ACCORDANCE WITH:  EN 130000:1993 EN 132100:1996	[4]
[7] Outline drawing (1 <sup>st</sup> angle projection):	[5] DETAIL SPECIFICATION FOR FIXED MULTILAYER CERAMIC SURFACE MOUNTING CAPACITORS
	[6] TYPICAL CONSTRUCTION (Examples):  strip terminations (if applicable)
(Other shapes are permitted within the dimensions given, see Table 1.)	[8] ASSESSMENT LEVEL: EZ

[9]  
 REFERENCE DATA: Rated capacitance range, capacitance tolerance,  
 d.c. rated voltage range, climatic category, performance grade

Information about manufacturers who have components qualified to this detail specification is available in the current CECC 00 200: Register of Firms, Products and Services Approved under the CECC System (Register of Approvals).

1 - GENERAL DATA

1.1 Method of mounting

See 1.3.2 of the sectional specification.

1.2 Dimensions

TABLE 1

Case size	Dimensions mm					
reference	D	L	H	d	.....	

NOTE 1 - When there is no case size reference, Table 1 may be omitted and the dimensions shall be given in Table 2A, which then becomes Table 1.  
NOTE 2 - The dimensions shall be given as maximum dimensions or as nominal dimensions with a tolerance.

1.3 Ratings and characteristics

Capacitance range	(see Table 2A)
Tolerance on rated capacitance	
Rated voltage	(see Table 2A)
Climatic category	
Rated temperature	
Tangent of loss angle (tan δ)	
Insulation resistance	
Temperature coefficient (Class 1)	$\alpha: \dots 10^{-6}/^{\circ}\text{C}$
Temperature characteristic of capacitance (Class 2)	$\dots \%$
Type of termination material	

TABLE 2A  
Values of capacitance related to voltages and case sizes

Rated voltage V				
Category voltage V <sup>1)</sup>				
	Case size	Case size	Case size	Case size
Rated capacitance pF				

1) If different from the rated voltage

#### 1.4 Related documents

Generic specification: EN 130000  
Sectional specification: EN 132100

#### 1.5 Marking

The marking of the capacitor, if any, and the packing shall be in accordance with 1.5 of EN 132100.

NOTES - The details of the marking of the component and packing shall be given in full in the detail specification.

If coded marking is employed, the code as given in Annex A shall be used.

#### 1.6 Ordering information

Orders for capacitors covered by this specification shall contain, in clear or coded form, the following minimum of information:

- (1) Rated capacitance
- (2) Tolerance on rated capacitance
- (3) Rated voltage
- (4) Number and issue reference of the detail specification and style reference
- (5) Packaging instructions.

#### 1.7 Certified test records of released lots

Required/not required.

#### 1.8 Additional information (not for inspection purposes)

#### 1.9 Additional or increased severities or requirements to those specified in the generic and/or sectional specification

NOTE - Additional or increased requirements should be specified only when essential.

TABLE 3  
Other characteristics

This table is to be used for defining characteristics which are additional to or more severe than those given in the sectional specification.
