## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 6512 was developed by Technical Committee ISO/TC 59, *Building construction*, and was circulated to the member bodies in December 1978.

It has been approved by the member bodies of the following countries :

Australia	Hungary	Norway
Belgium	India	Poland
Canada	Ireland	Romania
China	Israel	South Africa, Rep. of
Cyprus	Italy	Spain
Czechoslovakia	Japan	Sweden
Denmark	Korea, Rep. of	Switzerland
Finland	Libyan Arab Jamahiriya	Thailand
France	Mexico	Turkey
Germany, F.R.	Netherlands	United Kingdom
Greece	New Zealand	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Austria  
Bulgaria

This International Standard cancels and replaces ISO Recommendation R 1789-1973 of which it constitutes a technical revision.
