“Contractor”

Contractor provides to NEN for this Agreement the services of:

[Contractor’s Nominated expert’s name]

“Consultant”

Considering

NEN and the Contractor wish to run the work by an Engagement Contract exclusively as referred to in Article 7:402 of the Dutch Civil Code, where NEN is free to provide instructions in relation to the assignment, while Contractor nevertheless performs the Contract independently and is in that sense free to determine the order in which it is executed.

It is explicitly not the intention of NEN and Contractor to enter into an Employment Agreement according to Article 7:610 of the Dutch Civil Code. In those situations where the work is provided by home workers or similar, as defined in Articles 2b and 2c of the Dutch Income Tax Act of 1965 and Articles 1 and 5 of Decision December 24th 1986, Stb. 1986, 655, NEN and Contractor decide not to apply - and engage in a fictitious employment.

NEN and Contractor therefore have concluded this agreement to record the work, relationship and terms and conditions in signed writing before payment takes place.

Annex B  General terms and conditions for the provision of technical services to NEN

B.1  Applicability
B.1.1 The terms and conditions contained in this Annex are applicable to any Contractor for AGREEMENT FOR THE PROVISION OF TECHNICAL SERVICES TO NEN, the Netherlands Standardization Institute, a foundation registered in the Netherlands.

B.2  Notices
B.2.1 Any notice required or permitted to be given under the present Agreement by one party hereto to the other shall be in writing and shall be deemed to have been given as of the second business day following the date of mailing if mailed to the party to whom notice is to be given, by registered or certified mail, postage prepaid and properly addressed.

B.3  Amounts payable
B.3.1 A maximum expense allowance (i.e. maximum budget) for this work is specified in Article A.3 of the Contract. This maximum expense allowance limit may apply in two different kinds of, not mutually exclusive, circumstance:

- The maximum expense allowance for the services covered by this Contract depends upon a budgetary envelope made available for this work. Therefore no extension whatsoever of the work undertaken, even if perfectly justified by the circumstances, can implicitly or automatically lead to an expense allowance increase.

- The maximum expense allowance for the services covered by this Contract depends on the progress or completion of the activity to the satisfaction of EC/EFTA and notification thereof to NEN. (EC/EFTA has the obligation to respond within 60 man-days, additional enquiries by EC/EFTA may result in suspensions to this timeframe, such suspensions will end when the required information has been provided by NEN). Provided NEN has received notification of satisfactory completion from EC/EFTA, correct and undisputed invoices for the services shall be paid by NEN to the Contractor within 15 workdays.

- In case (an) initially foreseen payment(s) from the EC/EFTA to NEN is (are) not executed due to the failure to deliver (entirely) the foreseen deliverable(s), the Contractor will no longer have the right to claim the related payment(s), even in those cases where the failure to deliver is caused by factors outside the will of the Contractor.

B.3.2 The Contractor will be informed completely and as soon as possible about any disruption in the processes, possibly affecting the payments under this Contract and the corresponding tasks to be executed.
B.4  **Subcontracting, employing and hiring**

B.4.1  The Contractor is prohibited from subcontracting to third parties for the services provided under this Contract.

B.5  **Termination**

B.5.1  The Contract may be terminated without compensation by either party to the Agreement upon three months' prior written notice to the other party.

The Contractor shall be entitled to accrued and unpaid compensation due to Contractor as of the date of termination payable, corresponding only to the part of the Agreement fulfilled, after deduction of advance payments.

B.5.2  The Contract may, at the option of the CEN/TC 250 Management Group be immediately terminated, without prior notice:

I. upon the death of the Consultant or if the Consultant shall be rendered incapable by illness or any other valid cause from complying with the terms or provisions of the Contract for a period of time NEN determines to be unreasonable;

II. if the Contractor materially breaches any of the terms or provisions of the Contract;

III. if the Contractor habitually neglects the duties as contemplated under the Contract;

IV. if the Contractor is adjudged bankrupt or applies for judicial or extra-judicial bankruptcy or liquidation or dissolution or otherwise discontinues business or if a receiver, administrator, custodian, liquidator or the like is appointed to administer property or assets of the Contractor. In the event of termination under this provision, the termination shall be effective as of the date of notice of termination.

B.5.3  In the event of failure by the Contractor, duly notified by registered letter from NEN, to fulfil the obligations of the Contractor under this Contract, the Contractor will be given three weeks to resolve the failure.

If no solution takes place in these three weeks, the Contract may be terminated by registered letter without prior notice or payment of any compensation whatsoever by NEN, notwithstanding NEN’s possibility to recover all damages caused by Contractor.

B.5.4  If the total of advance payments made before the date of termination exceeds the sum finally due, the Contractor shall repay the excess in full to NEN within 60 man-days upon receipt of a request for repayment.

B.5.5  In the event the Contractor’s services are no longer provided to NEN, the Contractor agrees to deliver promptly to NEN all documents, memoranda, reports, files, samples, correspondence, lists, or other written or graphic (digital) records, and the like, relating to NEN’s business, which are or have been in possession of the Contractor or under control of the Contractor. Such materials shall be and remain NEN’s sole property, regardless of who actually prepared
the original materials. A copy of the work done by the Contractor may be kept by the Contractor for educational or research purposes only.

B.6 Technical reference authority
B.6.1 The technical reference authority, EC/EFTA and CEN, is referred to in Article A.3.1 of the Contract and may also play a role in the judgment of delivery and amounts payable as mentioned in Article B.3.1 of this Annex.

B.6.2 This authority is the entity normally participating in the technical judgement of deliveries resulting from the work in which the Contractor is involved.

B.6.3 In practice the responsibility of the technical reference authority is delegated by EC/EFTA and CEN to:

1. The CEN/TC 250/Management Group with regards to the performance of CEN/TC 250 Subcommittee chairpersons and CEN/TC 250 Working Group Convenors;
2. The relevant CEN/TC 250 Subcommittee chairpersons and CEN/TC 250 Working Group Convenors with regards to the performance of Project Team leaders;
3. The respective Project Team Leaders with regard to the performance of individual Project Team members.

B.6.4 The Project Team Leader has overall leadership responsibility for successful delivery of the task to NEN, and the individual Project Team members should accept the instructions of the Project Team Leader to this end. For the avoidance of doubt the Project Team Leader shall have no liability for the work undertaken by the Project Team members.

B.7 Liability
B.7.1 The services shall be performed with skill, care and diligence in accordance with normal professional engineering and consulting standards and practices.

B.7.2 Neither NEN nor the Contractor nor their Directors or Employees may under any circumstances or for any reasons whatsoever be held liable to each other or to each other’s personnel for damage sustained during the performance of the Contract.

B.7.3 Neither NEN nor the Contractor is responsible to the other for insuring the other Party.

B.7.4 NEN indemnifies the Contractor and the Consultant against all claims from third parties on account of damage or loss suffered by these third parties resulting from the application or use of the result of their work by CEN or by another person to whom NEN or CEN has made available the said result, unless there is a question of intent or gross negligence on the part of the Contractor or Consultant with respect to the assigned activities.

B.8 Transferability
B.8.1 The rights and obligations vested upon the Contractor or Consultant are personal obligations and are as such not transferable without the prior written consent of NEN.
B.9 Choice of law
B.9.1 The Contract and the rights and obligations of the parties there under shall be governed by and construed in all respect in accordance with the laws of the Netherlands.

B.10 Jurisdiction
B.10.1 Any difference or disputes arising in relation to the Contract shall be settled by an amicable effort in good faith by the parties.

B.10.2 An attempt to arrive at settlement shall be deemed to have failed as soon as one of the parties so notifies the other in writing.

B.10.3 In the event of any dispute between the contracting parties that cannot be resolved by mutual agreement, both parties may agree to mediation. Either party may propose a procedure and person(s) for mediation to the other party within 10 workdays after notification of the failed attempt to settlement, to which the other party will reply within 10 workdays. The mediation attempt may be considered a failure when no agreement can be reached between both parties on a procedure for mediation within 40 workdays after the initial proposal for mediation.

B.10.4 If an attempt as settlement has failed, the courts of the Netherlands shall have exclusive jurisdiction to determine any dispute arising between the contracting parties in the performance of the Contract in accordance with Dutch law.

B.10.5 No claim, demand, action, proceeding, arbitration, litigation, hearing, motion or lawsuit arising with respect to the Contract shall be commenced or prosecuted in any jurisdiction other than in the jurisdiction of the Netherlands, and any judgement, determination, finding or conclusion reached or rendered in any other jurisdiction shall be null and void between parties.

B.11 Invoicing
B.11.1 With regards to Article B.3, only the following categories of costs are eligible under this Contract:

B.11.3 Clearly readable time sheets shall be provided to NEN.

B.11.4 Incomplete invoices from the Contractor, or missing time sheets, may cause delays in payment.
B.11.5 The invoice may not exceed the maximum of 8 hours per day, nor exceed the tendered pricing per hour. Declarations may not exceed the assigned budgets given in the Contract unless overspending the assigned budgets is granted in writing by NEN.

B.11.6 Invoices from outside the Netherlands should not include VAT. 

B.12 Duty to keep documents and obligation to provide information

B.12.1 The Contractor shall keep all original documents, especially accounting and tax records, including receipts from travel expenses made for this Contract, stored on any appropriate medium, including digitalised originals when they are authorised by its national law and under the conditions laid down therein, for a period of five years starting from the date of payment of the balance for the action concerned.

B.12.2 This five years period shall be longer if there are on-going audits, appeals, litigation or pursuit of claims concerning the Contract. 1 in most cases reverse charge applies
